

15 March 1985

MEMORANDUM FOR: Director of Training and Education

VIA: Chief, Intelligence Training Division

FROM:

Chief, Professional Development Branch
Intelligence Training Division

STAT

SUBJECT: Cancellation of the May 1985 Running of
the Advanced Intelligence Seminar

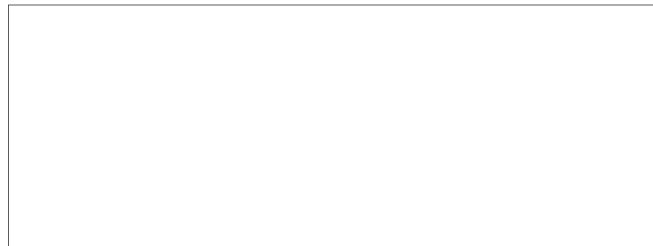

1. We request authorization to cancel the May 1985 running of the Advanced Intelligence Seminar (AIS).

2. In its present form, the course's value has been questioned by two key directorates. The ADDI questioned its value and purpose, and the DO has not supported the program. A total of two DO officers have been enrolled in the past three runnings.

3. AIS is scheduled for review in the second quarter of 1985. Chief, Intelligence Training and I have already discussed redesigning the program to make it more responsive to Agency needs. The proposed changes have been discussed with the ADDI and the C/CMS/DO, and both were positive in their reaction. The changes could not be implemented in the May running, but the time gained could be used for the necessary research and consultation to validate the redesign or alternative models, identify and contact prospective speakers, and develop the new program for Fall implementation. We would have the new model ready in concept for discussion at the June Curriculum Committee meeting.

4. An ancillary benefit would be budgetary, a savings of approximately \$3000.
